

Inflatable 5K

On Saturday 17th October 2026, St Stephen's Gate Medical Practice is taking on a run with inflatable obstacles to raise funds for 6-year-old Albert, who in 2022 was diagnosed with a rare genetic disorder, Mucopolysaccharidosis Type III (MPS III), also known as Sanfilippo syndrome. This condition causes progressive degeneration of the central nervous system.

The team are hoping to raise funds to support Albert and his family. The money will primarily be used to help fund his ongoing participation in the clinical trial and treatment in Germany. If the trial were to come to an unexpected end in the future, any remaining funds would help with the ongoing costs of Albert's care.

Our team will be made up of Doctors, Nurses, Healthcare Assistants, Managers, Team Leaders, Senior Administrators, Administrators and Receptionists.

Any support you can provide is greatly appreciated.

To sponsor the team, please go to the following link:
<http://bit.ly/3TsHZyl>

Alternatively, if you would prefer to give a cash donation, please hand this into reception.
